Our Cover

Frankford Radio Club members John Crovelli, W2GD (on the mast), and Dave Hawes, N3RD (on the work platform), put the finishing touches on the antenna installation for fellow club member Ed Post's, W2MKM, new 90-foot motorized crank-up tower in Washington, New Jersey. Antennas include a tribander on the bottom of the stack, a seven-element Yagi for 6 meters in the middle, and a three-element Yagi for 40 meters at the top. Ed is thrilled with his new setup, which has been on the air since November 10. In this issue, you'll find more gear to thrill you, from coax choke baluns that you can wind yourself, to details about a mesh networking go-kit, to the in-depth information in QST Product Reviews.
